III. Match the following : (1)

- | | |
|------------------|-----------------|
| a. Feather | 1. Dry / Grainy |
| b. Table surface | 2. Sensitive |
| c. Oil on floor | 3. Soft |
| d. Sand | 4. Slippery |
| e. Tongue | 5. Rough |

IV. Choose the correct option. (1)

- 1) How does the surface of the black board in your classroom feel?
a) Smooth b) Rough c) Dry
- 2) What we smell are tiny things called
a) Smell particles b) Tiny particles c) tiny cells
- 3) Our sense of touch starts at the bottom layer of our
a) Nerve ending b) Skin c) Nose
- 4) Our-----helps us to protect ourselves from touching hot object
a) Sense of hearing b) Sense of touch c) Sense of vision
- 5) Braille is a coding system used by
a) Blind people b) Deaf people c) Dumb

CHAPTER-4

1. FILL IN THE BLANKS:- (1)

- 1) won the Chinese Taipei open in September 2008.
- 2) The of Rajasthan are traditional street acrobats.
- 3) does not require special equipment.
- 4) As in games, we should have same in our lives.
- 5) and need special training to play

II. True or false : (1)

1. Hockey do not require special equipments. ()
2. The Nats of Rajasthan are traditional street acrobats. ()

3. We should never cheat while playing. ()
4. It is alright to tease the losing team. ()
5. Girls can't play as well as boys. ()

III. Match the following : (1)

- | | |
|---------------------|----------------------|
| a. Ringmaster | 1. Special equipment |
| b. Recreation | 2. Refresh the mind |
| c. Independence day | 3. Circus |
| d. Basketball | 4. Kite |

IV. Choose the correct option. (1)

- 1) Street games like seven tiles, Chikki-billa requires no special
 - a) Training
 - b) equipment
 - c) both a and b
- 2) In circus----- enters in ring and welcome other
 - a) Ring Master
 - b) Head master
 - c) Juggler
- 3) Special equipment are required for game like
 - a) Badminton
 - b) Hopscotch
 - c) Hide and seek
- 4) Football team has the ----- number of members
 - a) 5
 - b) 11
 - c) 15

CHAPTER- 5

I. FILL IN THE BLANKS:-

- 1) Shenaz makes embroidery designs by using
- 2) Chaman Lal works with a that is shaped like a shoe.
- 3) A mechanic works in a
- 4) Sunita is the only womanin Delhi.
- 5) Hari started off his career as a

II. True or false :

1. Cobbler mends torn shoes. ()
2. It is difficult to make enough money being a potter. ()
3. Sewing machine is a important tool of mechanic. ()
4. Production of food through farming is agriculture. ()
5. Doctor is someone who works for needy. ()

III. Match the following :

- | | |
|-------------------|--------------------|
| a. Cobbler | 1. Travel to space |
| b. Potter | 2. Silken thread |
| c. Sewing machine | 3. Potter's wheel |
| d. Embroidery | 4. Shoes |
| e. Astronaut | 5. Tailor |

IV. Choose the correct option. (1)

- 1) A tailor use -----stitching clothes
 - a) Sewing machine
 - b) Washing machine
 - c) Dish washing machine
- 2) Mechanic works in-----
 - a) Hotel
 - b) School
 - c) Motor garage

5. Value based questions.

3X3=9

- Should some animals be given woollen clothes during winter to keep them warm?
- Do you think that the animals whose ears we cannot see really do not have ears?
- You were eating in the playground, an eagle flew down and took away your roti. Why does it happen? Think and tell?

CHAPTER- 8

I. FILL IN THE BLANKS:-

- Plants make food through the process of
- is the female part of a flower.
- are forest dwellers.
- tree is used to make medicines.
- While feeding on nectar, and pollen, the insects the flowers.

II. Multiple choice questions.

- Taproot and fibrous root are two types of
 - Roots
 - Steam
 - Leaves
- All types of grasses have
 - Taproots
 - Fibrous root
 - Propagating roots
- Stamen is a male parts of a flower which includes
 - Anther and filaments
 - Petal & Sepal
 - Stigma & style
- Tesu flower is used to make----- colour
 - Lotus
 - Jasmine
 - rose

3. Answer in brief. (2x5)

- What prevents trees from getting uprooted during a storm?
- What is photosynthesis?
- Name the male parts of a flower.
- What are parasites?
- What is pollination?

4. Other question

- What are parasite plants give examples?
- When and why we can detect scents of flower on windless day?
- How does forest help forest- dwellers?

CHAPTER- 9

1. FILL IN THE BLANKS:-

- In a bee hive, male bees are known as
- Bee colony live in a
- Honey is full of and
- Unlike honeybees, and are also social insects.
- Bees store the nectar in their

2. Choose the correct answer.

- Honeybee through dancing informs about
 - Enemy
 - Nectar
 - Flower
- Bees store nectar, pollen and lay eggs in
 - Combs
 - Honey stomach
 - apiaries
- Each beehive has one-----bee
 - Drones
 - Worker
 - Queen
- The art of bee keeping is called
 - Apiculture
 - Horticulture
 - agriculture

- 5) A beehive is made of six- sided cells called
a) Triangle b) Square c) Hexagonal

3. Answer in brief. (2x5)

1. What is a beehive?
2. Name different bees found in a beehive.
3. What is apiculture?
4. What are apiaries?
5. Write the work done by a worker bee.

CHAPTER- 10 HOW DOES FOOD REACH US

1. FILL IN THE BLANKS:-

- 1) Farmers first prepare the field by it.
- 2) Oil is extracted from special seeds called
- 3) We use to preserve food.
- 4) The two most commonly eaten grains in home are and
- 5) The cutting of crops is called

2. Choose the correct answer.

- 1) The process of watering the crops are
a) Ploughing b) Irrigation c) sowing
- 2) The journey of a crops starts in the
a) Farmer's field b) Farmer's house c) Market
- 3) Removing the husk further cleans grains this process is called
a) Threshing b) Winnowing c) Harvesting
- 4) Potatoes, ginger and onions are
a) Stems b) Roots c) Leaves
- 5) -----is added to soil to make soil rich in nutrients
a) Manure b) water c) Soil

3. Answer in brief. (2x5)

1. What is the importance of manure in the soil?
2. Name four types of pulses.
3. Name two beverages that we get from plants.
4. Name two staple grains found in West Bengal.
5. What is winnowing?

4. Value based Questions.

3X3=9

- 1) Describe the journey of a crop?
