10. What will happen if people will not follow the rules of sacred groves ?
11. Who started Chipko movement and why it was started ?
12. Explain Van Mahotsav .
13. Which tribe can give up their lives to protect nature ?

Chapter – 9 Food and health

Short answer (2 marks)

1. Why do we need food ?
2. Why should we eat variety of foods ?
3. What is a balance diet ?
4. From which food items we get complex carbohydrates ?
5. Which vitamin keeps our gums healthy ?
6. Which cereals are rich in minerals ?
7. Name different tastes buds of our tongue .
8. How do we chew our food ?
9. What is called Pasteurization ?
10. What is packaging ?
11. What is a balance diet ? Name its main groups .
12. What are the different kinds of nutrients we get from food ?
13. What is the difference between Carbohydrates and proteins ?
14. How does the digestive system work ?
15. Write short note on Public Distribution system .
16. Explain the term cooking .
17. Name some methods of preserving food, How can we preserve food
18. What are deficiency diseases ?
19. What do you mean by adding preservatives ?
20. Write short on Canning .

Chapter- 5 Observing animals

Long Answers (3 marks)

1. Differentiate between herbivores ,omnivores and scavengers .
2. What would happen if animals were just omnivores ?
3. What is the difference between water animals , land animals and birds ?
4. What would happen if there were only herbivores and no carnivores ?
5. How do animals communicate with each other?Write with examples.
6. How do dolphins are considered as the intelligent animals ?

Chapter – 6 Protecting animals

Long answers (3 marks)

1. How do madaris catch monkeys and bears ?
2. Why the population of elephant decreasing ?
3. Who are street entertainers ?
4. Why the earthworms are called farmers friends ?
5. Write a note on white tigers ?
6. How we can protect tigers ?
7. Who are Gujjars ? What is their main occupation ?
8. Write about the problems that Gujjars have to face ?
9. What is the difference between endangered species and extinct species of animal ?
- 10.How are animals important for us ?

Chapter – 7 Plant lives

Long answers (3 marks)

1. Explain how fertilization takes place in a flower ?
2. When a seed can start germination ? with diagram
3. What is germination and what are the conditions required for germination of a seed ?
4. Why it is necessary for seeds to be dispersed ? What will happen if seeds are not dispersed ?
5. Explain how does reproduction happen in different plants .
6. Write suitable climatic condition for tea garden and name some places where tea gardens are found India ?

Value based questions : (3 marks)

Ch : 7 Plant life

1. Express your views on cross pollination . Do you think cross pollination should be encouraged ?
2. What will happen if seeds will not dispersed in time ?
3. How tea was discovered ?

Chapter – 8 Forest: Natural resources

Long answers (3 marks)

1. What is a Natural resources ?
2. Who are tribal people ? Name some tribal groups of India .
3. How do tribal people depend on forest ?
4. What is a forest ? Name some places of India where dense forests are found .
